# EVERCOAT EASY SAND

Polyester finishing and blending putty
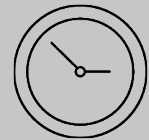

Skim coat for pinholes and minor imperfections

Flowable putty fully compatible for mixing with EZ Ultralite for complete viscosity adjustment and control

Contains ZNX-7

Exceptionally easy to sand

Quick curing

Features and Benefits

Excellent adhesion properties	»	Multi substrate application
Finish coat for filler	»	Eliminates pinholes
Contains Hattonite	»	Minimises heat build up and abrasive clogging

Substrates

Zinc coated steel

Polyester Filler

Steel

Galvanized steel

Aluminium

SMC

OE paint & clear coat

Hard plastics

Composite plastics

Applications

Body repair

Multi substrate application

Finishing stopper/putty

Skim coat and spot repair

Suited for

Automotive Refinishing

Composite Industries

Industry & Manufacturing

Type

EVERCOAT

EVERCOAT

Technical Specifications

VOC	Max 97 g/l VOC
Colour	White
Package Qty.	6
Shelf Life	18 months
Storage Temperature	25 °C
Capacity	880 ml
Sandability	10-15 minutes
Application Temperature	25 °C
Curing Ratio	2% hardener
Physical State	Liquid
Solubility	Not soluble in cold and warm water
Working Time	5-6 minutes
Maximum Build	3 mm (sanded)
