### Products

3608S Prepclean

### Remarks

- Close the container after use. This prevents the material to evaporate and lose strength.
- Preparatory cleaner, which eliminates non-water soluble contaminants, such as wax, polish, tar, silicones and grease from old finishes.

Consult Safety Data Sheet prior to use. Observe the precautionary notices displayed on the container.

All other products referred to in the refinish build up are from our Cromax product range. System properties will not be valid when the related material is used in combination with any other materials or additives which are not part of our Cromax product range, unless explicitly indicated otherwise.
