FEATURES

- 01** Eliminates non-water-soluble contaminants from old finishes.

TECHNICAL DATA SHEET

3919S

PREPSOL

Product preparation - application Preparatory Cleaner

It is strongly recommended to use appropriate personal protection equipment during application to avoid respiratory, skin and eye irritation.

Old or original paintwork.
Degrease the area to be repaired with 3919S.
Wipe dry with a clean cloth.
Change cloths often, never use dirty cloths.
It is important to thoroughly clean the surface before any sanding operation. Sanding would grind the contaminants into the surface.

Ready to use

Not applicable

VOC compliant

Remarks

- Close the container after use. This prevents the material to evaporate and lose strength.
- Do not use prior to application of any coating.
- Never clean uncoated bare metal with 3919S, use 3608S. For spot repair sand throughs use a degreaser.
- Never let 3919S evaporate from the surface. Treat only one small area at the time.
- Preparatory cleaner, which eliminates non-water soluble contaminants, such as wax, polish, tar, silicones and grease from old finishes.

Consult Safety Data Sheet prior to use. Observe the precautionary notices displayed on the container.

All other products referred to in the refinish build up are from our Cromax product range. System properties will not be valid when the related material is used in combination with any other materials or additives which are not part of our Cromax product range, unless explicitly indicated otherwise.
